

SHAPE THE FUTURE

A Microsoft program offering K-12 education institutions the lowest pricing on Windows 11 Pro Education when purchased with new Windows 11 devices.

Microsoft is dedicated to creating secure and inclusive learning solutions and technology that enable students to reach their full potential, both in and out of the classroom.

With the Shape the Future Program, K-12 education institutions have access to discounted academic pricing on Windows 11 Pro Education. Shape the Future pricing is available on a variety of Windows 11 devices from Acer, ASUS, Dell, HP, Lenovo, and more.

Flexibility and choice – K-12 education institutions can select the Shape the Future program SKU and work with the device partner that best meets their unique needs.

Windows 11 Pro Education on modern devices helps educators unlock the full potential of every student, with powerful tools to learn, collaborate, and create in a secure and trusted environment.

With built-in accessibility features and integrated learning tools Windows 11 supports students of all abilities.

How Shape the Future Works

The Shape the Future program gives K-12 education institutions the lowest pricing on Windows 11 Pro Education licenses when purchased with new Windows 11 devices.

To get started, education institutions should contact their device partner, or Microsoft sales representative to review their needs. As needed, competitive bids can be secured from more than one device partner.

Shape the Future program requirements, program SKUs, and eligible devices may vary by country.

Depending on the Shape the Future program SKU selected, a Letter of Eligibility may be required to confirm the required definition of a K-12 education institution is met. The device partner, or Microsoft sales representative will help determine if Letter of Eligibility is needed.

- If a Letter of Eligibility is required, in many countries, an online form may be used at aka.ms/shapethefuture
- If the online form is not available in your area, email loedesk@microsoft.com and a Microsoft representative will follow up for assistance.

Letters of Eligibility are sent directly from Microsoft to the education institution and are valid for two years.

For any questions, or assistance with the Shape the Future program, please email loedesk@microsoft.com or contact your device partner, or Microsoft sales representative.
